

## **Ecosystem Planning Work Team Summary**

### **Objective/Role:**

The ecosystem planning work-team will describe how to improve integration of ecosystem protection and restoration into water (and other resource) management and planning.

### **Key Deliverables:**

A chapter in volume 2 of the Water Plan Update 2013, namely, a resource management strategy for ecosystem restoration; and a chapter section in volume 1 on the economic value of ecosystem services provided by rivers and floodplains.

### **Coordination Venues:**

Ecosystem planning work-team meetings

### **How to get involved:**

Contact Michael Perrone at 916 376-9788 or [mperrone@water.ca.gov](mailto:mperrone@water.ca.gov) or at State Agency Steering Committee meetings or at Public Advisory Committee meetings.
